

ELASTOTECNICA Connectors BE-44, BE-66, BE-88 and BE-100 are multi-port connectors for low voltage underground electrical distribution which offer better characteristics than series BS.

- Exceed the electrical and mechanical capabilities of their predecessors.
- Zero heating.
- Light and practical.
- More spacious installations between cables.
- For installations with smaller spaces.
- Capacity for more connections.
- Air tight guaranteed.
- Rough use.
